MEMORANDUM FOR: Chief, Atomic/Biological/Chemical Division, OSI

ATTENTION: [Redacted]

FROM: Chief, CIA/PID(NPIC)

SUBJECT: Search for AE Test Activity and/or Missile
Related Activities, Aiz Shan Desert, China

REFERENCES: Requirement No. OSI/104/63
CIA Project No. C 403-63

1. As requested, a search was made of the area northeast
of the Trans-Sinkiang Railroad to the Mongolian border from
longitude 94° E to 100° E for evidence of preparation of an
atomic test site or missile related activities. Good quality
current [Redacted] photography of the search area [Redacted]

[Redacted] was available only east of longitude 97° E.
There is a gap in the photographic coverage between longitude
96° E and 97° E and heavy clouds appearing on the photography
between longitude 94° E and 96° E preclude a thorough analysis
of the area west of longitude 97° E.

2. In the area searched there is no evidence of the existence
of an atomic test site or related facility.

3. The photo analyst on this project is [Redacted]
He may be contacted on extension [Redacted] should there by further
questions regarding this project.

4. This memorandum answers the above referenced requirement
and the project is considered complete.
